Art Unit: 1711

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., In re Berg, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); In re Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-4, 11, 15-30, 37, 41-63, 65, 66, 70-73, 80, 84-91, 98 and 102-115 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 36-49 of copending Application No. 09/800418.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the scope of the claims overlap.

This is a <u>provisional</u> obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

The terminal disclaimer filed on 8-7-06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US

6,818,151 has been reviewed and is accepted. The terminal disclaimer has been recorded.

The terminal disclaimer filed on 8-7-06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,559,205 has been reviewed and is accepted.

The terminal disclaimer has been recorded. The terminal disclaimer filed on 8-7-06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,437,086 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Ching and Cai, newly cited fail to teach or suggest a composition containing applicants oxygen scavenger in combination with an oxygen barrier polyer.

Applicant's arguments filed 8-7-06 have been fully considered but they are not persuasive. Applicants are in the future to use larger font when filing in the patent numbers disclaimed in their terminal disclaimers. Applicants' font is such that the resolution of IFW results in numbers that are legible but barely so and may not ne depending on scanning. With re 09/800,418, claim 32 of the '418 application (assumed to be encompassed the independent claim from which it ultimately depends) recites applicants oxygen scavenging polymer.

Application/Control Number: 09/666,642

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time

policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE

MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication should be directed to Jeffrey C. Mullis

M-F, 9-5 pm at telephone number 571 272 1075.
